

**OASIS HRMS****SIMPLE USER GUIDE****ALL-IN-ONE WORKFORCE & PEOPLE APP**

Everything You Need to Know in Plain English

A friendly, non-technical handbook explaining all features, how everyday tasks work, and where to find everything in Oasis HRMS.

For Employees

1-Tap GPS punch in, apply leaves, view payslips, claim bills, ask AI assistant Ovi.

For HR Teams

Live staff attendance radar, 1-click leave approvals, fast payroll, hiring & IT assets.

For Owners / Admins

Executive dashboard, company settings, team management & security logs.

Works On: Mobile Phones (Android / iPhone) & Desktop Web

Simple Edition • Confidential & Proprietary

What Can Employees Do?

As an employee, Oasis is your personal portal for daily work life. Everything you need is accessible from your mobile phone or web browser in just a few taps.

1-Tap Smart Clock In / Out

DAILY

Menu: Attendance

When you reach the office, open the app. The app verifies that you are inside the office building using GPS.

- ✓ **Live Distance:** Shows how close you are (e.g. "75 meters away — Inside Office").
- ✓ **Quick Selfie:** Front camera takes a quick snap to confirm it's you.
- ✓ **Break Timer:** Pause for Tea or Lunch with 1 tap.
- ✓ **Monthly History:** See your full month calendar of present, late, or off days.

Apply for Leaves in 30 Seconds

SELF-SERVICE

Menu: Leave

No more sending emails or filling paper forms to take time off.

- ✓ **Live Balances:** View your remaining Annual, Sick, and Casual leave days.
- ✓ **Half-Day Option:** Select First-Half or Second-Half if needed.
- ✓ **Instant Notifications:** Get notified as soon as HR approves your leave.
- ✓ **Holiday List:** Check all upcoming festival and company holidays.

View Salary & Download Payslips

MONTHLY

Menu: Salary / Payslips

Access your monthly salary breakdown securely whenever you need it.

- ✓ **Clear Earnings:** See Basic pay, HRA, and allowances clearly.
- ✓ **Deductions:** Check PF, Taxes (TDS), and take-home pay.
- ✓ **1-Click Download:** Download or share official digital payslips for loans or records.

Ask "Ovi" (24/7 AI HR Assistant)

AI POWERED

Menu: Call Ovi

Got a question about company policy, leaves, or health insurance? Talk or chat with Ovi!

- ✓ **Instant Answers:** "How many sick leaves do I have left?"
- ✓ **Policy Guide:** "What is our travel reimbursement policy?"
- ✓ **Voice Call:** Tap to call Ovi for a friendly voice conversation.

More Employee Self-Service Tools

Expense Claims

Took a client to lunch or bought office supplies? Snap a photo of the bill, enter the amount, and get reimbursed directly.

Training & LMS

Watch skill-building video lessons, complete mandatory security courses, and earn downloadable certificates.

Kudos & Recognition

Appreciate your teammates by sending fun Kudos badges ("Rockstar", "Team Player") on the social feed.

What Can HR Managers Do?

Oasis eliminates repetitive paperwork so HR teams can focus on people, hiring, and culture. Here are the core operational workflows you can run every day:

Daily & Monthly HR Workflows

1 Live Attendance Radar (Who is in, late, or on leave)

At `/ (hr) / attendance`, view real-time statistics of the entire company. See who punched in on time, who is running late with shift grace periods, and who is away on approved leave.

2 1-Click Leave Approvals

At `/ (hr) / leave`, review all pending employee leave requests in one queue. Check the employee's reason and remaining balance, then click **Approve** or **Reject** with a single tap.

3 3-Step Monthly Payroll & Salary Processing

At `/ (hr) / payroll`, open the current month's payroll. The system automatically calculates working days, cuts for unpaid leaves (LOP), and generates digital payslips for all staff members automatically.

4 Hiring & Applicant Tracking (ATS)

At `/ (hr) / recruitment`, create job postings that automatically appear on your public Careers page (`/ careers`), LinkedIn, and job boards. Move candidates across interview rounds, score them, send offer letters, and turn them into employees with 1 click.

HR Operational Hub Overview

Company Asset & Laptop Registry

Keep track of all company laptops, monitors, phones, and hardware. Know who has which device, serial numbers, purchase values, and warranty dates.

Goals & 360 Performance Reviews

Set company and department goals (OKRs) with progress sliders. Run annual or quarterly appraisal cycles where employees submit self-reviews and managers provide ratings.

Shifts & Roster Planning

Create Morning, Evening, or Night shifts with custom start/end times and grace allowances (e.g. 15 mins). Assign shifts to staff members individually or by department.

Helpdesk & Ticket Management

Receive and resolve internal staff requests for HR questions, IT support, payroll queries, or office facilities with priority flags (Urgent, High, Normal).

For Business Owners & Admins

The Admin console gives leadership complete visibility, company branding controls, office location setup, and security oversight.

Executive Dashboard

Instant birds-eye view of total headcount, active departments, daily attendance percentages, and monthly payroll expenses.

Office & Geofence Setup

Add your company office branches, set their map location (GPS coordinates), and set how far staff can be to punch in (e.g. 150m radius).

Company Branding

Upload your company logo, customize the company name, set default working hours, official currency, and timezones.

Enterprise Security & Audit Trail

Every important action in the system (changing salaries, promoting staff, changing office coordinates, or deleting entries) is permanently recorded in the Audit Logs for complete transparency.

Quick "Where Do I Find...?" Cheat Sheet

Use this lookup table to find any everyday feature instantly:

WHAT DO YOU WANT TO DO?	WHO DOES IT?	WHERE IS IT IN THE APP?
Punch in / Clock out for the day	Employee	Home Dashboard or Attendance tab
Apply for vacation or sick leave	Employee	Leave tab → "Apply Leave"
